

TomTom extends PRO range with 5" screen editions

TomTom extends PRO range with 5" screen editions

Amsterdam, 29 March 2011 – TomTom today announces the availability of three new 5 inch screen navigation devices for professional use; TomTom PRO 7150, PRO 9150 and PRO 7150 TRUCK. All are designed to deliver bottom-line benefits for businesses and the larger screen makes it easier for users to operate

These latest editions feature a 5" fluid touch screen to provide a clear view on the road ahead and easy interaction with the WORKsmart™ functionality. As well as delivering the smartest routes, the PRO series forms part of the WORKsmart solution which enable mileage registration, time registration, job status reports and more.

"The larger display makes the driver's job of managing his order and communicating back to the office even easier, while also increasing the sizes of the navigation screen itself" says Thomas Schmidt, Managing Director of TomTom Business Solutions.

Other features include: - Efficient driving with IQ Routes® and Eco Routes. - Safe driving with Advanced Lane Guidance, text-to-speech and Hands-free calling. - Finding your way around Europe with the richest map for 45 European countries. - As part of the WORKsmart solution the PRO series enable vehicle tracking, job dispatch, time management, carbon & fuel management and management reporting. As well as it provides access to LIVE Services including HD Traffic.* The PRO 7150 TRUCK additionally has a truck-specific routing algorithm and height, width and weight restrictions on the map for 15 European countries. Availability and pricing The PRO 7150, 9150 and 7150 TRUCK are currently available via authorised business partners.

The PRO 7150 recommended price is 359 euro and 299 GBP (RRP ex VAT). The PRO 9150 recommended price is 429 euro and 359 GBP (RRP ex VAT). The PRO 7150 TRUCK recommended price is 399 euro and 339 GBP (RRP ex VAT).

LIVE Services are available in up to 33 countries, availability may vary and a subscription to TomTom WEBFLEET is required.

* Notes to editor WORKsmart and LIVE Services are enabled via a connection to TomTom WEBFLEET. The PRO 7150 requires a TomTom LINK to be installed in the vehicle for a connection to WEBFLEET. The PRO 9150 is directly connected to WEBFLEET. Subscription required.
