Introducing TomTom GO Mobile, a free Android app

~ TomTom navigation with real-time traffic information now available, worldwide ~

Amsterdam, 25 March 2015 – [TomTom](#) (TOM2) GO Mobile, a new navigation app for Android devices, with TomTom Traffic, is now available globally for free on 64 Google Play stores. People can now experience TomTom's premium navigation and real-time traffic information, driving up to 75km every month free of charge*. Drivers can upgrade to unlimited driving with a simple in app purchase.

Sharing the same user interface as the award-winning TomTom GO satnav, the mobile app now helps drivers get to their destinations, faster, every day. With offline Maps, TomTom Traffic, superior routing and Speed Camera warnings in countries where available, the app is the ideal travel companion for mobile users. The new app features a global map licence so drivers can use it all over the world** even without a network connection***.

"The TomTom GO Mobile app for Android is made for drivers who want to experience the best of TomTom on their smartphone," says Corinne Vigreux, Managing Director, TomTom Consumer. "We entirely rethought our Mobile solution so every driver has the chance to try navigation with TomTom Traffic. Now all Android owners can avoid the traffic jams and get to their destinations faster, every day."

The app is now available to download from the Google Play store for free: <https://play.google.com/store/apps/details?id=com.tomtom.gplay.navapp>
