

## Q2 Revenue Update

**July 7, 2006 - Amsterdam**

Sales of the new GO range were constrained during the second quarter following the short-supply of a component. The issues with respect to this component have been resolved and production levels are now satisfactory and in line with our planning.

As a result of the short supply of this component, revenue for the second quarter will be restricted to around € 275 million; the gross margin for the quarter will be at least 40%. Final results for the second quarter will be released on July 25<sup>th</sup> and at this time we will give further details about second quarter trading.

Full year 2006 guidance is unchanged - PND volumes are expected to be between 3.6 million and 3.9 million units and revenues between € 1.1 billion and € 1.3 billion.
